

# ■ Arnold Random Popup — Installation & Activation Guide

## Step 1: Download the ZIP

1. Download the ZIP file: **arnold-random-popup.zip**
2. Save it somewhere easy to find — like your **Downloads** or **Desktop** folder.

## Step 2: Unzip the File

1. Right-click the ZIP file → choose **Extract All...** (Windows) or **Open** → **Extract** (Mac).
2. A new folder named **arnold-random-popup** will appear.

## Step 3: Open Chrome Extensions Page

1. In Chrome, go to the address bar and type **chrome://extensions**.
2. Press **Enter**.
3. In the top-right corner, turn on the switch for **Developer mode**.

## Step 4: Load the Extension

1. Click **Load unpacked**.
  2. Navigate to and select the folder you unzipped.
  3. Chrome will now install and activate the extension.
- You should immediately see the Arnold Speaks popup window appear once.

## Step 5: Verify It's Running

- You'll see the pig icon appear in Chrome's toolbar.
- The extension automatically opens random Arnold popups every 30–120 minutes.
- You can click the toolbar icon anytime to trigger a popup immediately.

## How to Use

- Each popup shows a random Arnold image and quote from the server.
- Click the “**Test Now**” button to load a new random image and quote instantly.
- Popups continue appearing until the extension is disabled or removed.

## Disable or Remove

1. Go to **chrome://extensions**.
2. Find **Arnold Random Popup**.
3. Toggle it off to disable, or click **Remove** to uninstall.

## Quick Recap

Action	Where
Enable Developer Mode	chrome://extensions
Load Unpacked Folder	Select unzipped arnold-random-popup
Click Toolbar Icon	Opens popup instantly
'Test Now' Button	Refreshes Arnold image + quote
